SKILLS

Java

C#

Since my education at science high school, I have consistently nurtured strong analytical thinking and problem-solving skills, which have shaped both my academic and professional journey. As a Computer Engineering graduate, I bring expertise in software development, database management, and algorithm analysis, complemented by advanced experience in 2D and 3D game development using Unity Engine.

Through internships and project-based work, I have gained practical knowledge in object-oriented programming, interface design, and process optimization. My ability to adapt quickly, collaborate effectively, and maintain high ethical standards allows me to deliver impactful solutions in both individual and team-oriented environments.

Driven by a passion for technology and continuous learning, I aim to leverage my technical expertise and creative mindset to contribute to innovative projects that bridge technology with real-world challenges.

Work history

2024-07 - 2025-01	Intern <i>OtiLab, Ankara</i> <ul style="list-style-type: none">• Position: Intern• Duration: 6 months 12 days• Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments.
2023-07 - 2023-09	Intern <i>SinerjiSoft A.Ş., Ankara, Ankara</i> <ul style="list-style-type: none">• Position: Intern• Duration: 1 month 19 days• Utilized strong communication abilities during presentations which led to increased understanding among colleagues regarding project goals and objectives.

EDUCATION

Computer Engineering

Marmara University

- Status: 4th Year Undergraduate
- GPA: 2.7

C

SQL

Problem-solving

Unity Engine: Advanced

Teamwork and collaboration

Quick learner

Front-end frameworks

Python programming
